Realtime Applications is the creator of wyaworks – a platform for creating web based data driven applications. Wyaworks enables fast and easy creation, modification, and maintenance of applications in a team/role/user group environment in a fraction of the time and resources typically required.

Realtime Applications uses their proprietary platform wyaworks, offering different levels of hosted and in house installations combined with custom application development, to implement working solutions for companies of all sizes.

### Wyaworks Installation Solutions

Hosted Intranet	Custom Server	In House Install
<p>Wyaworks intranet installed on Realtime Applications servers in their chosen data center - eApps.</p> <p>eApps Hosting 7742 Spalding Drive, #363 Norcross, GA, USA 30092 <a href="http://www.eapps.com">http://www.eapps.com</a></p>	<p>Pre-configured server with all the necessary software to be an in house web-based application provider.</p> <ul style="list-style-type: none"> <li>- Linux – Fedora Core</li> <li>- JBoss Application Server</li> <li>- MySQL Database</li> <li>- Wyaworks</li> </ul>	<p>Customized installation in house with connectivity to web services. Linux or Windows based.</p> <ul style="list-style-type: none"> <li>- J2EE Environment</li> <li>- WSSO &amp; LDAP</li> <li>- MySQL or SQL Server</li> </ul>

### Custom Application Development

Working Prototypes	Evolutionary Programming	UI & Maintainability
<p>Understanding that development starts around a working model, the first step is to prototype your business process with a raw but very functional wyaworks application.</p>	<p>Establishing all programming requirements before starting to program is not a realistic approach for most business processes. Realtime Applications understands that requirements evolve around the development and prototype.</p>	<p>When the functionality and requirements are met. Realtime Applications can customize the user interface using DHTML &amp; AJAX for a richer and more intuitive experience.</p> <p>All applications are extremely maintainable due to the nature of wyaworks.</p>
